-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 March 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Election/Restrictions

1. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from among the following for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable (Currently, none are generic):

I. Embodiment of Fig. 4

II. Embodiment of Fig. 5

2. Upon election of single species I or II, applicant is further required under 35 U.S.C. 121 to elect a single disclosed species for each of the following for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable (currently, none are generic). This additional requirement is to facilitate examining due to the broad range of structures that can be included in applicant's amplifier:

- A. Elect the number of Erbium-doped fiber lengths
- B. Elect the number of multi-port add-drop multiplexers
- C. Elect the number of multi-port optical power splitters
- D. Elect the number of noise suppression filters
- E. Elect the number of pump lasers
- F. Number of ports on add-drop multiplexers

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement (e. g. *I, A. four erbium-doped fiber lengths, B. three optical add-drop multiplexers, C. four optical power splitters, D. one noise suppression filter, E. one pump laser, F. three ports on add-drop multiplexers*), and a listing of all claims readable thereon, including any claims subsequently added. *Note that election must not be made using open-ended language, e. g. comprising. An open-ended election will be considered non-responsive. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.*

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

4. Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Eric Bolda whose telephone number is 571-272-8104. The examiner can normally be reached on M-F from 8:30am to 5pm.
